

How do I connect to the Wi-Fi?

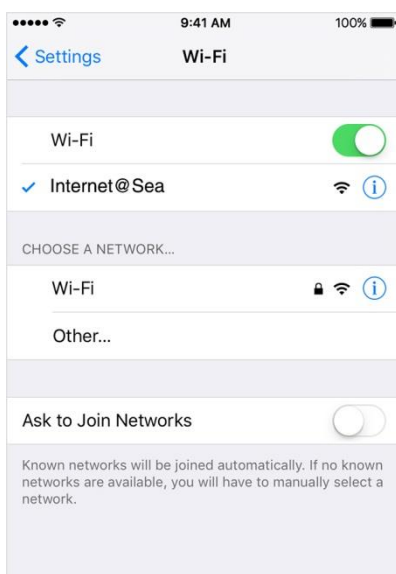

Brittany Ferries is pleased to offer you access to free onboard Wi-Fi called **Internet@Sea**. This document details how to connect on your Apple device.

Before you start, please have your boarding card/cabin key at the ready as this is where your access code is located.

1. Tap **Settings > Wi-Fi**, and make sure Wi-Fi is turned on. Your device will search for available networks.

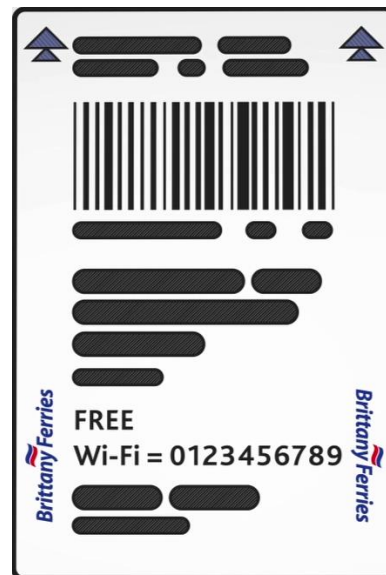

2. Tap the name of Brittany Ferries' Wi-Fi network; **Internet@Sea**

After you've joined the network, you should see ✓ next to **Internet@Sea**, and  in the upper-left side of your screen.

Please then wait for the Brittany Ferries welcome screen to appear where you will be able to enter your access code.

IMPORTANT

Please note that this service is provided by satellite and therefore will not be the same as the internet you are used to at home or in the office.

We have taken reasonable measures to restrict access / downloads to some online content (including Skype and YouTube).

To avoid any data charges from your network provider, we recommend you turn off your data roaming and Wi-Fi Assist settings. These are found in **Settings > Mobile network**.
